

252 Award Scheme Rules

The 252 Award is to promote and recognise improvement amongst developing archers, after completion of beginners' courses. FoBB have introduced this recognition scheme aimed initially at junior members, however, this scheme is available to all archers on request. Archers will be awarded a certificate for scoring 252 in 3 dozen arrows at various distances (averaging 7 per arrow) on imperial scoring. This 3 dozen can be part of a club round or shot on their own, under normal scoring rules.

FoBB 252 Scheme Rules

- Archery GB rules of Shooting to apply.
- Three dozen (36) arrows to be shot at the specified distance using a 122cm target face and Archery GB five zone scoring. The three dozen arrows may be shot alone or as the first three dozen of a longer imperial round.
- Six sighter arrows are permitted which will not count towards the final score.
- An award is made when an archer scores 252 or more two times.
- There is no restriction on the order of distance in which awards are obtained, (i.e. a 30 yards award may be obtained before a shorter distance is attempted, which may then be obtained at a later date).
- Each distance award may only be claimed once by each archer.
- It is the responsibility of the archer to make a claim for an award with the records officer.
- To claim an award, the score sheet should be completed and countersigned by another archer.
- Please ensure the archer's name is present on result sheets used for award claims.
- Claims for away shoots where the score sheet is not available will be permitted, provided an official from the shoot concerned is prepared to verify the result (i.e. signed and dated own score sheet, or some other signed and dated document).
